

Are you interested in marketing and technology?

As a Marketing Assistant (Intern) the main challenge is transforming technical terms and complex technology into easily understandable and catching ways of communication.

We are looking for an intern to support the Marketing Manager on the following tasks:

- Digital Marketing.
- Creating campaigns.
- Analysing and updating our website.
- Writing content for the website and LinkedIn.
- Organizing events and attending them.
- Making presentations about the company.
- Creating brochures, flyers, PPT presentations, and other materials.
- Contacting external people.

About you:

- You have a “problem solver” mindset.
- You are comfortable talking to strangers.
- You enjoy being surrounded by many different cultures and nationalities.
- You are fluent in English; other languages are a plus.
- You are willing to stay with us for a minimum of 12 weeks.
- You would like to work physically in Aalborg.
- If you have designing skills and can use Photoshop, Illustrator, or similar it is a big plus.

What we offer:

- A seat in our great office.
- Direct contact to all departments so you can learn a bit about everything.
- Knowledge about marketing, sales, satellite technology, and the maritime industry.
- You will get the chance to be independent and run your own activities.
- Flexibility.
- If you have a job, we can offer alternative working hours.
- Nice environment with international people in high spirits.

Who are we and what do we do?

We are the first Danish satellite operator. We want the oceans to be a safer and greener place and we do that by fulfilling the needs of communication in the maritime sector.

Does it sound interesting?

Please, write a short application where you share your experience, availability, and a CV to: application@sternula.com
